

Call for Papers

**9th Annual Conference
on Subject-Oriented Business Process Management
(S-BPM ONE 2017)**

"Smart BPM for a Smarter World"

March 30-31, 2017

Darmstadt, Germany

in cooperation with

TECHNISCHE
UNIVERSITÄT
DARMSTADT

Technische Hochschule
Ingolstadt

Scope

S-BPM ONE is established as the primary venue of conceptual and practical innovations in the field of Subject-Oriented Business Process Management. The 9th International S-BPM ONE Conference 2017 will put an emphasis on novel approaches to value creation in cyber-physical systems that leverage BPM technology, and S-BPM in particular. Smart cities, integrated (inter-)enterprise value chains, smart energy and smart transport systems are just a few of the fields where BPM can make a difference. Besides this focus, S-BPM ONE invites contributions from all pertinent topics as usual.

Topics of Interest

The topics of interest include, but are not limited to

- Connecting real-world actors and activities in real-time with BPM processes
- Integrating sensors, actors, apps and events to BPM
- Integrating field workers and stakeholders in S-BPM
- Governing Governance Networks
- Managing Urban Ecosystems with S-BPM
- Relating Organizational Resilience and Infrastructure Resilience based on (S-)BPM
- Connecting Urban Data and Urban Services to Value Added Process Networks
- Embedding Cyber-physical Systems (CPS) in S-BPM
- Embedding Network and Actor Theories in S-BPM
- Towards Network-Centric BPM
- Applying agile Methods on BPM
- Formal semantics and methods for S-BPM
- Open Process Access in BPM Networks
- Advancing Social BPM towards Subject-Oriented BPM
- Repositioning Agent-based Systems for Value-based BPM
- Process Values 'in the Cloud'
- Value Emergence in Process Networks
- Enterprise Architecting for Value-based Process Networks
- Enriching Cross-organizational Business Processes for Value Creation
- BPM in Organizational Learning and Knowledge Management Networks
- Collaboration in Smart Cities

Important Dates

- November 30, 2016: Due date for paper submission
- January 15, 2017: Notification of acceptance
- January 31, 2017: Camera-ready version of accepted papers
- March 30-31, 2017: S-BPM ONE 2017 Conference

Types of Submission

We solicit a wide range of submissions reaching from research papers and experience or application studies to going show contributions. For more details refer to the submission section on the conference website.

The following variety of submissions is invited:

- **Research Papers** as the way to present quality state-of-the-art research in all related BPM areas; for researchers with interest in BPM and related areas this is a primary citation source. Submissions should not exceed 10 pages (ACM format).
- **Practitioner Reports:** This track is for practical BPM system developments or BPM implementation work that can be demonstrated either through hands-on-experience or presentations to receive focused feedback. Submissions on elaborated work practices and case studies on BPM are welcome. BPM practitioners are provided with the opportunity of oral presentation. Submissions outlining such presentations should not exceed one page (ACM format) plus technical installation requirements (if any).
- **Young Researcher Networking Event Contributions:** Master or PhD students in one of the above mentioned areas, either in early stage or late stage, are encouraged to share ideas with peers and receive feedback in a relaxed atmosphere with senior people from research and development communities. Supervisors of master or PhD students are kindly asked to encourage their respective student participation. The submission required is just a one page abstract (ACM format) reflecting the theme and status of the work.
- **Work in Progress** concerns submissions on on-going challenging and exploratory research or late-breaking results. This track will provide the opportunity of a poster presentation, as it is held in conjunction with the main tracks of the conference. Contributors will be asked to brief the audience through elevator pitches.

We also plan keynotes to specific BPM topics.

Submission Guidelines

All submissions will be subject to a double blind review by a body of international program committee members. Members of the program committee are encouraged to submit papers. Their contributions will be reviewed without conflicts of interests.

The submission, review and notification process will be handled by the [ConfTool Conference Management System](#). It is not possible to submit papers using any other channel, such as e-mail.

Submission language is English. Individuals may be co-authors of more than one paper, but will be able to present only one paper. Authors need to submit a signed copyright form as a scanned PDF document together with the camera-ready version of their paper in case of acceptance. One author may sign on behalf of all of the other authors of a particular paper

Submission Format

Authors must follow the formatting guidelines for ACM SIG Proceedings. Templates and technical instructions are provided by the ACM [here](#).

Steering Committee

- Albert Fleischmann, Metasonic AG, Pfaffenhofen, Germany
- Werner Schmidt, Technische Hochschule Ingolstadt, Germany
- Christian Stary, Johannes Kepler University, Linz, Austria

General Chair

Max Mühlhäuser, Technical University Darmstadt, Telecooperation Group, Germany
chair2017@s-bpm-one.org

Program Chair

Cornelia Zehbold, Technische Hochschule Ingolstadt, Germany
programchair2017@s-bpm-one.org

Program Committee (to be published on the conference web site)

Host & Location

[Technical University of Darmstadt, Telecooperation Group, Germany](#)
